

ADAM interface with
CoolKnight® headgear

Proven Interface Technology.

Lightweight and comfortable, the *ADAM*® interface system (airway delivery and management) uses Nasal Pillows to offer patients a unique alternative for CPAP therapy. The Nasal Pillows gently seal at the patient's nares to reduce leaks. The *ADAM* interface includes Velcro®** fasteners that permit maximum versatility in fitting and adjustment.

[adam® interfacesystem]

> *ADAM* Interface System Features

- Nasal Pillows minimize leaks and give CPAP users a comfortable alternative to traditional masks.
- Nasal Pillows come in seven sizes to give your patients a wide choice in fit.
- Swivel adapters relieve stress between the tubing and shell to help keep Nasal Pillows in place.
- Tubing routes over patient's head for greater freedom of movement.
- Four lightweight, adjustable headgear options are available for sleep lab and home use.
- A calibrated exhalation hole in the shell allows carbon dioxide venting.

In addition to the *ADAM* system, Puritan Bennett offers a range of interface options, including the innovative *Breeze*® *SleepGear*® CPAP interface system shown here.

PURITAN
BENNETT

A complete patient circuit consists of a circuit assembly, headgear and Nasal Pillows. Other accessories can be ordered as needed. Circuit assemblies include 6' smooth bore tube, swivel adapter and shell. Hose attachment fits 22mm OD connection.

Ordering Information

Description	Catalog Number
ADAM narrow/large <i>SnugFit</i> [®] kit, includes narrow shell, large pillows, <i>SnugFit</i> headgear, flex tube, swivel adapter, angle adapter and 22mm connector	Y-100874-00
ADAM narrow/medium <i>KnightWear</i> kit, includes narrow shell, medium pillows, <i>KnightWear</i> headgear, flex tube, swivel adapter, angle adapter and 22mm connector	Y-100873-00
ADAM standard/medium <i>SnugFit</i> kit, includes standard shell, medium pillows, <i>SnugFit</i> headgear, flex tube, swivel adapter, angle adapter and 22mm connector	Y-100871-00
ADAM standard/large <i>SnugFit</i> kit, includes standard shell, large pillows, <i>SnugFit</i> headgear, flex tube, swivel adapter, angle adapter and 22mm connector	Y-100872-00
Nasal ventilation circuit, includes standard shell, swivel adapter, short connecting hose	Y-133283-00C
<i>CoolKnight</i> headgear with Breath-O-Prene [®] straps	Y-101564-00
